

School Construction Update

Dear Alumni

The Alumni Association would like to make Alumni aware of the planned event by the KZN Department of Education in conjunction with the office of the Premier, whose purpose is to hand a refurbished Pholela High School facility over. The event is set to take place on the 8th October 2021 at PI. This comes after a successful construction project which has endured some challenges but eventually overcome.

Alumni is an important stakeholder to Pholela as the school and those who have to do with the wellbeing of the school. Therefore such a significant milestone to be marked on the 8th of October is a great achievement for Alumni in line with the primary objective of the Association. We thank all who have had a role to play in support of the construction project.

Alumni shall be represented at such an event and visual elements thereof will be shared with all through the established channels.

Keep well and stay safe.

Then...

And now!!

DONE!

8th October 2021
